

Travel Policy (for Students and Staff)

(Updated 8/23/21)

*Applies to all FSMA students and staff (vaccinated or not-vaccinated)

Families/Staff will be expected to communicate out of state/overnight travel plans to the school nurse.

When staff/students travel out of state, if the destination is on the travel-restriction list, quarantine requirements will be adhered to. For ALL international travel, students will be required to quarantine.

Travel quarantine requirements/expectations:

- The student/staff member should go for covid-testing no earlier than 3 days after he/she/they return. Once negative results are obtained, the student/staff member may return to school.
- If a student must quarantine because they chose to travel, teachers will not be expected to provide work during the travel experience or during the quarantine period. Students can work on things they have access to and will make up any necessary work upon their return.
