

Dear families of FSMA students entering Grades 4/5/6,

We want to give students an opportunity to keep learning over the summer - while also encouraging them to enjoy their time off and time outside. Please read over the information that follows about the summer work for students entering grades 4/5/6. Let us know if you have any questions. Thank you in advance for your support at home.

Happy summer, and happy learning!
-The 4/5/6 Team

Math

Complete **both** of the assignments below:

1. Khan Academy

- Entering 4th Graders - Complete the "[Get ready for 4th grade](#)" course.
- Entering 5th Graders - Complete the "[Get ready for 5th grade](#)" course.
- Entering 6th Graders - Complete the "[Get ready for 6th grade](#)" course.

(Your child can use an existing Khan Academy account if they have one, or click [here](#) to create one or visit <https://www.khanacademy.org/khan-for-educators/resources/parents-mentors-1/helping-your-child/a/create-accounts-for-you-and-your-children>)

2. Multiplication Fact Work

<https://mathigon.org/> offers 5-minute daily multiplication practice, and it's a great way to practice your facts over the summer. On the website, scroll down and click on Multiplication Flash Cards →

Reading

Complete **one** of the summer reading activities below:

1. [Delaware Libraries' Summer Reading Program](https://lib.de.us/summerreading/) (<https://lib.de.us/summerreading/>)
2. [Barnes and Noble Summer Reading Program](https://www.barnesandnobleinc.com/our-stores-communities/summer-reading-program/)
(<https://www.barnesandnobleinc.com/our-stores-communities/summer-reading-program/>)
3. Set a personal goal for how many books you want to read this summer, and fill in the titles on the next page! ****You do not need to fill in ALL of the book spines!****

SUMMER

reading

CREATE YOUR OWN!
Fill in the spines with titles of books
you read this summer.
